Personalized T-Shirts

While interacting with other international athletes at the global platform I noticed that they were paying a lot for the team jerseys as against the value of these apparels. With some market research and sourcing research we spotted this as a viable business opportunity. If we needed every athlete and individual to have the opportunity to have their own Custom T-shirt at an affordable price, we had to e-retail it.

Everyone has ideas and many of them fit on a shirt. We give those ideas the space they deserve

Compressed T-Shirt

T-shirt + Pressure + Insert Card = Success!

Any 100% cotton round t-shirt / napkin can be compressed into a miniature shape of a product. on removing the outside foil (Plastic) the compressed garments is to be dipped in water for it to regain its shape.

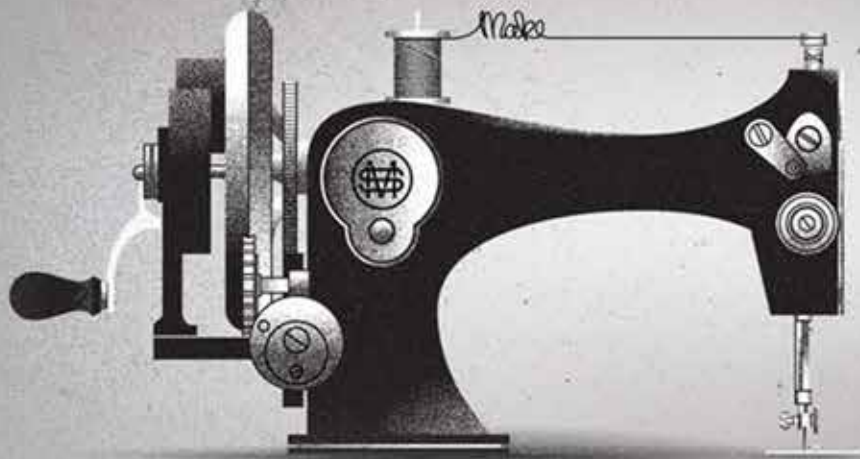

Cost for compression per piece in addition to the t-shirt & print cost:

- 100-200 Pcs RS 40/-
- 200-500 Pcs RS 35/-
- 500-1000 Pcs RS 30/-
- 100 and above Pcs RS 28/-

Compression is possible in any shape desired. if a shape other than the ones shown here is required then there is a mould cost Rs. 22000/- in addition to the compressing cost

Please note while creating a design for a new mold, all the edges need to be curved.
